

# SEEC DRIVE SYSTEM FOR TWICE THE POWER FOR A SMOOTH AND EFFICIENT EXPERIENCE

SEEC Drive System for Twice the Power

Power Created Through Motion

Natural Gait Trajectory

# POWER CREATED THROUGH MOTION EXERCISE EVEN WHEN THERE IS NO POWER

Relying on the outstanding power generation capabilities of the SEEC system

Even when there is no power, you can still continue exercising without interruption;

With no more power supply restrictions, this machine can be set up anywhere.

The V8 elliptical trainer features a constant wattage training mode

As you move more slowly, the resistance goes up

As you pick up speed, the resistance goes down

This ensures constant calorie consumption and a more efficient training session.

### SCIENTIFICALLY-DETERMINED PEDAL SEPARATION CUSHIONED FOOT PEDALS FOR ADDED COMFORT

The pedal separation on the V8 is specifically designed for the typical shoulder widths and foot separation of Asian body types;

The pedals feature a cushioning layer of EVA, easing pressure on the joints.

# MAGNETIC RESISTANCE PRECISION ADJUSTMENT

Suitable for a large variety of training intensity requirements

32 different settings

Magnetic resistance for precision adjustment

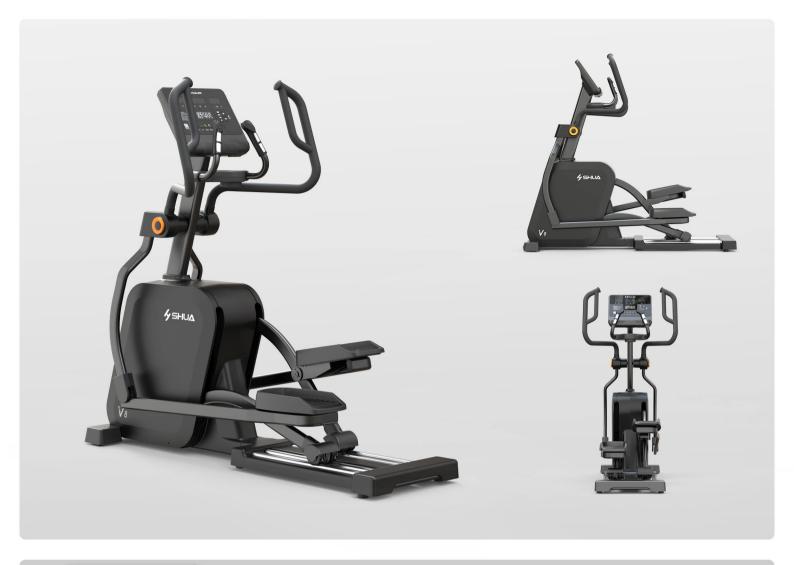

# FOUR HIGH-QUALITY TRACK TRAJECTORIES FOR STABLE LOAD BEARING

Four aluminum alloy tracks ensure smoothness and stability while exercising

Maximum load up to 160KG

Even heavier people can exercise to their hearts' content

#### SH-E800

Power :Self-generation system Flywheel :12kg electromagnetic control flywheel

Display :15 inch LED screen Heart Rate :Handle pulse rate

Resistance level :32 level Stride size :20 inch (510mm)

Demension:1900\*860\*1777mm Max user's weight:160kg

N.W :130kg G.W :150kg
